

WE ARE HIRING!

JOIN OUR TEAM

Machinist (EDM/CNC)

OVERVIEW

We are looking for a Machinist (EDM/CNC) to handle machine setting operations, support leaders in tooling activities, and ensure proper documentation and housekeeping. The role requires technical expertise, attention to detail, and the ability to maintain machines and tools effectively while reporting any issues or deviations.

KEY RESPONSIBILITIES

- Perform machine setting work and assist leaders in setup.
- Ensure proper filing of documents and upkeep of machines/tools.
- Maintain housekeeping standards in the work area.
- Report problems or deviations to supervisors promptly.

REQUIREMENTS

- Technical Certification or Diploma in a relevant field.
- 2-5 years of related working experience.
- Basic knowledge of AutoCAD and ability to read simple 2D tooling drawings.
- Good communication and interpersonal skills.
- Willingness to work on rotating shifts.
